File No. Motor II/52 (R) Pt-I

35-B

Legal Department.

In place of the Home Department draft at page 45 ante, a revised draft notification is sent herewith.

2. A general exemption power as proposed to be given in D.S., H.D's note dated 18/2/1952 at page 113 ante is likely to be attacked on the ground that it gives unlimited and arbitrary powers to Government, Some guiding principle according to which such power will be used will have to be indicated and the revised draft provides accordingly. The Departmentx may verify whether it would serve the purpose.

3. As the revised draft does not contain any substanital changes and is not more stringent than the draft at page 16 which was published for inviting objections and suggestions a final notification can now be issued.
